To whom it may concern,

I'm writing with respect to the California Marine Life Protection Act Initiative. I would like to express my concern that the Fish and Game Commission has decided not to put in a Marine Reserve from the Breakwater Pier to Lovers Point where a great deal of recreational diving takes place. To me as a diver this is completely unacceptable, considering the paramount importance of this area to divers and other recreational enthusiasts that use this area more than any other group as a whole. I would like to know who's idea it was to not protect this vital area.

Very respectfully,
